## Título del Proyecto

**EUCERD Joint Action: working for rare diseases (EJA)**

## Nº de expediente asignado

Agreement n°: 2011-22-01

## Abstract

The EUCERD Joint Action: Working for Rare Diseases (N° 2011 22 01) was co-funded by the European Commission (Executive Agency for Health and Consumers, now CHAFEA) in the context of the European Union’s Second Programme of Community Action in the field of Health. It started on 1 March 2012 and ended in 2015, supporting the activities and mandate of the European Union Committee of Experts on Rare Diseases until the end of 2013 when the EUCERD ended its mandate. From 2014 it supported the activities of the European Commission Expert Group on Rare Diseases which replaced the EUCERD. This Joint Action was led by Prof. Kate Bushby, former Vice-Chair of the EUCERD and member of the new Expert Group.

The EUCERD was mandated to assist the EC in formulating and implementing the Community's activities in the field of rare diseases, to foster exchanges of relevant experience, policies and practices between the Member States and stakeholders. Rare diseases are a priority area for action in the Public Health Programme (2008-2013). These activities have been defined in the Communication of the European Commission, entitled “Rare Diseases: Europe’s challenge” (11 November 2008) and the Council Recommendation on an action in the field of rare diseases (8 June 2009).

## Entidad Financiadora

**European Union - European Agency for Health and Consumers (EAHC)**

## Convocatoria:

**EU Health Programme 2008-2013**

## Importe de la ayuda
